

4th Meeting Plan (24/08)

- Show and talk about schedule and agenda
- priority of payPal & third-party plugins vs visa and masterCard
difficulty of implementing security for users
How to keep users' details
Whether it is legal to keep users' bank details
- Check MVP with clients
reduce some functions: mentioned someone in comments
- logo, color, font, style etc

4th Meeting Notes

- User Interface (Indigo)
Background: indigo/purple & blue/purple to blue (gradient color design)
Set color schema according to logo design (Unicorn)
- Explore page: background schema
- Sign IP contract and talk about cost, resource, license
Until now, no cost
Big web server in later stage may cost (amazon cloud? database)
- Hope to store some personal details (users' location etc)
Database design
- payPal and third party plugin
Reach an agreement
Client want visa/master card to be implemented in later stage (not in MVP)
- dream and aspirations
Client hopes to get investment with MVP and which helps to boost the development.
- Talk about focus on next week (show agenda)
Schedule may change according to the evaluation of risk and effort in the recent stages
